Programs.

Application 18-06-015
Filed June 26, 2018

**SOUTHERN CALIFORNIA EDISON COMPANY’S (U338-E)
NOTICE OF EX PARTE COMMUNICATION**

Southern California Edison Company (“SCE”) hereby gives notice pursuant to Rules 8.3(c) and 8.4(a) of the Rules of Practice and Procedure of the California Public Utilities Commission (“Commission”) of the following communication.

DATE and TIME OF COMMUNICATION: August 8, 2018, from 3:00 p.m. to 3:30 p.m.

LOCATION: Advanced Energy Economy (“AEE”), Pathway to 2050 Conference, Sacramento Convention Center

WHO INITIATED COMMUNICATION: Southern California Edison Company (SCE)

NAMES AND TITLES OF NON-CPUC PERSONS PRESENT: Maria Rigatti, Executive Vice President and Chief Financial Officer, Edison International

NAMES AND TITLES OF CPUC PERSONS PRESENT: Carla Peterman, Commissioner

BRIEF DESCRIPTION OF COMMUNICATION: Ms. Rigatti spoke as a panelist as part of the AEE Pathway to 2050 Conference. After the conference, SCE became aware that Commissioner Peterman was present for at least a portion of the panel discussion. During her comments, Ms. Rigatti mentioned that SCE supports cost-effective decarbonization and innovative approaches in support of that goal. Ms. Rigatti discussed SCE’s proposed Clean Energy Optimization Pilot as

an approach that provides performance-based incentives to reduce greenhouse gases through energy efficiency, storage, and other technologies. Ms. Rigatti also mentioned California's ambitious climate goals and SCE's Clean Power and Electrification Pathway, and that electric vehicles and utilities play an important role in achieving the State's climate goals to reduce GHG emissions, nitrous oxides, and particulate matter, including by expanding distributed energy resources, transportation electrification, and building electrification. She stated that SCE is building charging infrastructure needed to make this a reality and explained that significant infrastructure to support away-from-home charging is necessary to meet the charging station need and enable charging at times when there is abundant renewable energy.

WRITTEN MATERIALS PROVIDED: No

Respectfully submitted,

ANNA VALDBERG
