Application 14-10-014
(Filed October 30, 2014)

**SOUTHERN CALIFORNIA EDISON COMPANY'S (U 338-E) PROOF OF
COMPLIANCE WITH RULE 13.1 OF THE COMMISSION'S RULES OF PRACTICE
AND PROCEDURE**

Pursuant to Rule 13.1 of the Rules of Practice and Procedure of the California Public Utilities Commission (Commission or CPUC), Southern California Edison Company (SCE) hereby submits its Proof of Compliance with Rule 13.1(b)'s notice requirements regarding the Evidentiary Hearings scheduled for June 22-26, 2015, in Phase 1 of this proceeding. Rule 13.1(b) requires that when a utility files an application to increase rates and hearings are scheduled, notice of the hearings is to be posted in public places and published in newspapers of general circulation in the areas in which the increase is proposed to be made effective. Proof of publication and sample copies of the notices appearing in the newspapers are to be filed within 10 days after publication.

Pursuant to Rule 13.1(b), notice of the hearings is to be published no more than 30 nor less than five days prior to the first day of the hearing. SCE notes that, due to their publication schedules, several newspaper within SCE's service territory were unable to meet this deadline and published the notice of hearings four days before the first day of hearings in this proceeding (on June 18, 2015), and one newspaper (the *Catalina Islander*) was unable to publish the notice until three days before the first day of hearings in this proceeding (on June 19, 2015). The other

newspapers within SCE's service territory did timely publish the notice of hearings (on June 17, 2015). The newspaper publication Schedule is provided in Exhibit A, Attachment 2, hereto.

The following exhibits are attached in support of this Proof of Compliance:

1. Exhibit A: Declaration of SCE employee Marisa George dated June 29, 2015, in support of proof of the newspaper publication of the Notice of Evidentiary Hearings in Phase 1 of SCE's Charge Ready and Market Education Programs Application Proceeding, A.14-10-014, in accordance with Rule 13.1(b). The following documents are attached to this Declaration as required by Rule 13.1(b): (1) Sample of the Notice provided to Newspapers for publication; and (2) Newspaper Publication Schedule.
2. Exhibit B: Declaration of SCE employee Marisa George dated June 29, 2015, in support of proof of posting the Notice of Evidentiary Hearings in Phase 1 of SCE's Charge Ready and Market Education Programs Application Proceeding, A.14-10-014, on www.sce.com/notices. A sample of the Notice as posted on www.sce.com/notices is attached to this Declaration.
3. Exhibit C: Declaration of SCE employee Victoria May dated June 29, 2015, in support of proof of the posting of the Notice of Evidentiary Hearings in Phase 1 of SCE's Charge Ready and Market Education Programs Application Proceeding, A.14-10-014, in SCE local business offices. A sample of the Notice as posted in SCE local business offices is attached to this Declaration.

Respectfully submitted,

NOTICE OF EVIDENTIARY HEARINGS REGARDING THE PILOT PHASE OF SOUTHERN CALIFORNIA EDISON COMPANY'S PROPOSAL FOR CHARGE READY AND MARKET EDUCATION PROGRAMS

APPLICATION (A.) 14-10-014

PROPOSAL TO INCREASE ELECTRIC RATES
Monday, June 22, 2015, through Friday, June 26, 2015
10:00 A.M.

CPUC Hearing Room, 605 Van Ness Avenue
San Francisco, CA 94102

The California Public Utilities Commission (CPUC) is currently reviewing Southern California Edison Company's (SCE) request to increase rates for issues related to the pilot phase of its Charge Ready and Market Education Programs. Evidentiary Hearings (EHs) are scheduled for the dates, times, and location shown above.

Any changes to the dates, times, and locations of the EHs will be posted to the CPUC's Daily Calendar, which is accessible on the CPUC website at www.cpuc.ca.gov. The hearing location is wheelchair accessible. Any participant needing a language or Sign interpreter, or other special assistance, should contact the CPUC's Public Advisor's Office (PAO) at the address listed at the bottom of this notice at least five days in advance of the hearing date.

INFORMATION ABOUT SCE'S PROPOSAL

On October 30, 2014, SCE submitted an application to the CPUC for approval of its proposed Charge Ready and Market Education Programs, which includes a pilot phase (Phase 1). If this pilot phase is approved, SCE will recover the program costs through electric rates. SCE's estimate of the total cost of this pilot phase is \$22 million in 2015, which will result in a 0.03% system wide average rate increase compared to August 2014 rates.

Through this proposed program, SCE will encourage business customers to add charging stations to their property by providing the supporting electric infrastructure needed. SCE will offer customers a rebate for purchasing the charging stations. SCE will own and maintain the supporting electrical infrastructure. Customers will choose, own, operate, and maintain the charging stations. SCE's proposed Charge Ready program aims to support the deployment of charging installations efficiently by factoring in the location, design and construction costs to maintain reasonable fees.

In this application, SCE is proposing to implement a two-phase Charge Ready program and an electric vehicle (EV) Market Education campaign. Phase 1 would be a one-year pilot to deploy up to 1,500 charging stations, and would also include an introductory market education program. Phase 2 would include deployment of additional charging stations to bring the total up to 30,000 over five years, and expand the market education and outreach campaign.

SCE's proposed Charge Ready program is integral to developing the charging infrastructure required to increase EV usage to help meet California's greenhouse gas (GHG), climate, air quality and petroleum reduction goals and objectives by 2020. The Charge Ready program will expand the EV charging infrastructure and aims to improve customer awareness.

EVIDENTIARY HEARINGS

At these EHs the assigned Administrative Law Judge (Judge) will receive the testimony of representatives from SCE, as well as consumer advocacy groups, and all other parties to this proceeding. These hearings are open to the public, but only those who are parties to the proceeding may present evidence, testimony, and be subject to cross-examination. The hearings and documents submitted during the proceeding become part of the formal record that the Judge relies upon in writing a proposed decision to present to the Commissioners for their consideration.

After considering all proposals and evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision which may adopt SCE's proposal, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon at a scheduled CPUC Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) has reviewed SCE's Application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov, or visit ORA's website at www.ora.ca.gov.

APPLICATION (A.) 14-11-007, et al.

PROPOSAL AFFECTING ELECTRIC RATES

Wednesday, June 17, 2015, through Thursday, June 18, 2015

10:00 A.M.

**CPUC Hearing Room, 505 Van Ness Avenue
San Francisco, CA 94102**

The California Public Utilities Commission (CPUC) is currently reviewing Southern California Edison Company's (SCE) request to alter rates for issues related to Low-Income Programs for years 2015-2017. Evidentiary Hearings (EHs) are scheduled for the dates, times, and location shown above.

Any changes to the dates, times, and location of the EHs will be posted to the CPUC's Daily Calendar, which is accessible on the CPUC website at www.cpuc.ca.gov. The hearing location is wheelchair accessible. Any participant needing a language or Sign interpreter, or other special assistance, should contact the CPUC's Public Advisor's Office (PAO) at the address listed at the bottom of this notice at least five (5) days in advance of the hearing date.

INFORMATION ABOUT SCE'S PROPOSAL

On November 18, 2014, SCE proposed to the CPUC approval of its Energy Savings Assistance (ESA) and California Alternate Rates for Energy (CARE) programs for 2015 – 2017 and budgets for 2016-2017 (In August 2014, the CPUC approved the 2015 budget). SCE seeks funding approval of \$71.35 million for 2016 and \$71.55 million for 2017. These programs provide qualified low-income customers with discounts on their energy bills and free or low cost appliances and other devices to help lower their energy use.

If this application is approved, SCE will collect \$228.496 million in electric revenues for low income programs over the 2015-2017 period. SCE's request in this application is a \$12.563 million net decrease over the amount authorized by the CPUC for these programs for the 2012-2014 program cycle (see CPUC Decision D.12-08-044, as modified by D.14-08-030), which is an average net decrease of \$4.188 million per year.

BACKGROUND ON LOW INCOME PROGRAMS

SCE offers a variety of programs and services to help income-qualified customers reduce their energy bills. The ESA Program helps low-income customers conserve energy and save money by providing free (or substantially discounted) appliances and installation of energy efficient refrigerators, air conditioners and more, as well as home efficiency solutions such as weatherization. More information on SCE's ESA Program can be found online at www.sce.com/esap. The CARE Program helps ensure electricity is available at affordable rates to qualifying low income customers by providing at least a 30 percent discount on electricity bills. More information on SCE's CARE Program can be found online at www.sce.com/care.

EVIDENTIARY HEARINGS

At these EHs the assigned Administrative Law Judge (Judge) will receive the testimony of representatives from SCE and the other utilities, as well as consumer advocacy groups, and all other parties to this proceeding. These hearings are open to the public, but only those who are parties to the proceeding may present evidence, testimony, and be subject to cross-examination. The hearings and documents submitted during the proceeding become part of the formal record that the Judge relies upon in writing a proposed decision to present to the Commissioners for their consideration.

After considering all proposals and evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision which may adopt SCE's proposal, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon at a scheduled CPUC Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) has reviewed SCE's Application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. SCE's estimate of the total cost of this pilot phase is \$22 million in 2015, which will result in a 0.03% system wide average rate increase compared to August 2014 rates.

Through this proposed program, SCE will encourage business customers to add charging stations to their property by providing the supporting electric infrastructure needed. SCE will offer

customers a rebate for purchasing the charging stations. SCE will own and maintain the supporting electrical infrastructure. Customers will choose, own, operate, and maintain the charging stations. SCE's proposed Charge Ready program aims to support the deployment of charging installations efficiently by factoring in the location, design and construction costs to maintain reasonable fees.

In this application, SCE is proposing to implement a two-phase Charge Ready program and an electric vehicle (EV) Market Education campaign. Phase 1 would be a one-year pilot to deploy up to 1,500 charging stations, and would also include an introductory market education program. Phase 2 would include deployment of additional charging stations to bring the total up to 30,000 over five years, and expand the market education and outreach campaign.

SCE's proposed Charge Ready program is integral to developing the charging infrastructure required to increase EV usage to help meet California's greenhouse gas (GHG), climate, air quality and petroleum reduction goals and objectives by 2020. The Charge Ready program will expand the EV charging infrastructure and aims to improve customer awareness.

EVIDENTIARY HEARINGS

At these EHs the assigned Administrative Law Judge (Judge) will receive the testimony of representatives from SCE, as well as consumer advocacy groups, and all other parties to this proceeding. These hearings are open to the public, but only those who are parties to the proceeding may present evidence, testimony, and be subject to cross-examination. The hearings and documents submitted during the proceeding become part of the formal record that the Judge relies upon in writing a proposed decision to present to the Commissioners for their consideration.

After considering all proposals and evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision which may adopt SCE's proposal, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon at a scheduled CPUC Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) has reviewed SCE's Application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov, or visit ORA's website at www.ora.ca.gov.
