Application Of Southern California Edison
Company (U 338-E) For Authority To Increase
Its Authorized Revenues For Electric Service In
2018, Among Other Things, And To Reflect That
Increase In Rates.

TEST YEAR 2018 GENERAL RATE CASE APPLICATION
OF SOUTHERN CALIFORNIA EDISON COMPANY (U 338-E)

I. INTRODUCTION

Southern California Edison Company (SCE or Company) respectfully files this application for a
Test Year 2018 General Rate Case (GRC). In this application, SCE asks the California Public Utilities
Commission (CPUC or Commission) to authorize a base revenue requirement (ABRR) of $5.885 billion
to become effective January 1, 2018, and to reflect the ABRR in distribution, generation and new system
generation (peakers) rates. Including sales reductions and $48 million in other one-time balancing and
memorandum account recoveries, our request represents a $313 million, or 5.5 percent, increase over
currently authorized base rates.

A. Summary Of Reasons For SCE’s Request

As discussed in SCE’s Chief Executive Officer Kevin Payne’s testimony in Exhibit SCE-01,
advancements in key energy technologies, along with changing customer behaviors about clean energy
and being able to choose and control their energy use, are together creating an unprecedented new era in
how electricity is generated, delivered, and used.

But what has not changed is every customer’s expectation that the lights will turn on when
he/she flips a switch, that the power will stay on to provide safety, security, and in some cases life
support (especially during emergencies), and that voltage will not fluctuate so as to disrupt
manufacturing and cause economic losses. What has not changed is SCE’s responsibility to deliver safe
and reliable electricity to its customers, regardless of whether it is on a 4kV circuit with old obsolete equipment, or a new 16kV circuit with a majority of the customers using solar photovoltaic, or anything in between.

Meeting this core responsibility is the focus of SCE’s GRC showing. SCE’s infrastructure continues to age and deteriorate. Equipment failures pose serious safety and reliability risks, and SCE is continuing to work proactively to mitigate those risks. SCE has highlighted these issues in the past several rate cases, and appreciates that the Commission has authorized funding to pursue several infrastructure replacement programs with increasing scope. But SCE has not arrived at a steady state of maintenance where grid performance is no longer eroding. SCE must also leverage its infrastructure replacement programs to implement solutions that improve safety and reliability by updating decades-old grid design and engineering standards. As customers use the grid differently by adding distributed resources, feeding excess generation back to the grid, or changing load patterns by charging electric vehicles at night, SCE must make the necessary modifications to keep up with these changes.

Moreover, as Mr. Payne discusses in SCE-01, the utility must evolve beyond its traditional role of providing adequate service at low rates. Similarly, the role of regulators and customer advocates can no longer be to just monitor and verify that utilities provide adequate service at low rates. The utility, policymakers, customer advocates, and Distributed Energy Resources (DER) related private industry must collaborate to maintain the existing grid while building new capabilities. SCE understands that it has the dual responsibilities of improving safety and reliability while modifying the grid. In doing so, SCE also needs to spend customers’ money wisely.

The Commission’s dedication to safety, reliability, clean energy, and customer choice is clear. The Safety Model Assessment Proceeding is helping drive a culture and discipline of risk-informed decision-making that prioritizes safety and reliability. California, led by this Commission, is spearheading a transformative energy policy to assure both the widespread deployment of DERs and the innovative use of these resources to provide services and benefits to the grid. Recently, the California legislature passed Assembly Bill 327 (codified as Public Utilities Code Section 769). That Bill requires that utilities develop distribution resource plans to integrate DERs and recognizes the need to consider “investments in distribution infrastructure” to achieve this. In response, this Commission opened the Distribution Resources Plan (DRP) proceeding to undertake the process of “moving the IOUs towards a more full integration of DERs into their distribution system planning, operations, and investment.”

---

1 DRP Order Instituting Rulemaking (DRP OIR), at p. 4.
SCE has identified five key strategic objectives that support California’s public policies and guide SCE’s work. SCE’s mission is clear: keep its customers safe, provide them reliable service, give them more energy choices, communicate quickly and effectively with them, and prudently spend the money they pay in rates.

SCE’s GRC showing demonstrates its commitment to these five strategic objectives:

- **Be Safe In All We Do**
- **Reinforce Grid Reliability And Resiliency**
- **Integrate Distributed Energy Resources without Compromising Safety and Reliability**
- **Improve Service and Choices to Meet Evolving Customer Needs**
- **Enhance Operational Efficiency and Effectiveness**

Table 1 summarizes SCE’s requested ABRR and CPUC-jurisdictional base-rate revenue changes for Test Year 2018 and the two post-Test Years, 2019 and 2020.

**B. Commission Jurisdictional Revenue Requirement**

The expenses and capital expenditures presented in the prepared testimony accompanying this application include certain items that are subject to the ratemaking authority of the Federal Energy Regulatory Commission (FERC). To determine 2018-2020 Commission-jurisdictional revenue requirements, SCE must split those costs that are to be recovered through rates authorized by the Commission from those authorized by FERC. In D.04-07-022 (SCE’s 2003 GRC), the Commission
adopted SCE’s proposed method for doing so. The Commission followed this same method in SCE’s prior GRCs since our 2006 GRC.²

C. Total Compensation Study

Total Compensation Studies have been an element of utility GRCs for over 20 years. In our 1992 GRC, the Commission directed that SCE and Commission staff “continue their joint studies on compensation.”³ In our 1995 GRC, the Commission ordered that in our next GRC we were to “present a [total compensation] study in which independent experts have undertaken all analysis with regard to benchmarks, job matching, and the selection of comparable firms.”⁴ SCE’s next GRC was for Test Year 2003. In its decision on that 2003 GRC, the Commission found that the Total Compensation Study presented in that proceeding complied with that directive:

In accordance with Commission direction in prior GRCs (D.87-12-066, D.91 12 076, and D.96-01-011), SCE and ORA jointly selected an independent expert, Hewitt Associates, to perform a total compensation study. SCE and ORA jointly managed the study.

…

The submission of the total compensation study comports with prior Commission directives. We appreciate SCE’s and ORA’s cooperative efforts in this respect.⁵

SCE’s 2006, 2009, 2012, and 2015 GRCs also included Total Compensation Studies performed by an independent expert jointly selected and managed by SCE and the Commission’s Office of Ratepayer Advocates (ORA). For this 2018 GRC, ORA declined to participate in the selection of the independent expert and the management of the total compensation study, but SCE continued to use AON Hewitt, the same expert ORA jointly selected in the 2006, 2009, 2012, and 2015 GRCs,⁶ to perform a total compensation study. The study compares SCE’s total compensation – salaries, benefits, and long- and short-term incentives – to compensation offered at other employers in the relevant labor markets.

---

⁶ In 2011, Hewitt and Associates LLC (the independent expert selected for total compensation studies in the 2006, 2009, and 2012 GRCs) was acquired by AON and is now known as AON Hewitt.
D. Previously Litigated Issues On Which The Commission Has Taken A Position

The cost estimates and requests included in SCE’s Test Year 2018 GRC are consistent with applicable laws and Commission precedent.

SCE’s requests include the following, which the Commission has previously taken a position and that SCE asks the Commission to reconsider in this proceeding:

1. Customer Deposits

   As discussed in Exhibit SCE-09, Volume 02, customer deposits are funds collected from customers for security against non-payment that will be returned to those same customers or used as a credit against their bills in the event of non-payment. This practice, which is widely followed by other utilities, protects other customers in the event the new customer defaults. As discussed in Exhibit SCE-09, SCE remains the only California electric utility that the Commission requires to offset rate base by the amount of customer deposits. In this 2018 GRC application, SCE asks the Commission to correct this aberrant policy and align SCE’s ratemaking practice to the one applied to other California electric utilities.

2. Long-Term Incentives, Executive Short-Term Incentives, And Executive Benefits

   As mentioned above, in its 2012 and 2015 GRCs, SCE submitted the results of a Total Compensation Study performed by an independent expert under the joint management of SCE and the Commission staff. Those studies showed that SCE’s total compensation – salaries, benefits, and short- and long-term incentives – were essentially at market levels. Despite that result, the Commission’s decisions in the 2012 and 2015 GRCs rejected SCE’s requests to recover the costs of long-term incentive pay, and allowed only partial recovery of short-term incentives and benefits. In this 2018 GRC, SCE once again submits the results of a Total Compensation Study showing SCE’s total compensation statistically equivalent to the market average and asks the Commission to reconsider this categorical rejection of long-term incentives and its partial rejection of short-term incentives and benefits. Such rejections are fundamentally incompatible with cost-of-service ratemaking principles and ignore evidence of SCE’s market level compensation and the customer benefits arising from the use of variable pay programs. These ratemaking policy issues and customer benefits are discussed in Exhibit SCE-06, Volume 02. The Total Compensation Study report is provided in Exhibit SCE-06, Volume 03.

3. Equity Compensation for Non-Employee Directors

   In its 2012 and 2015 GRCs, SCE sought recovery of total compensation for non-employee directors, including equity compensation, given that the law requires a corporate board and
these expenses were reasonable in amount and typical costs of conducting business in the State of California. However, the Commission has denied SCE’s request to recover equity compensation costs on the grounds that the primary functions of the Board of Directors include representing the interests of shareholders. SCE respectfully notes that the duty of the Board of Directors is to act in the best interests of SCE as a whole, and equity compensation to directors reinforces focus on long-term interests for the benefit of customers and shareholders. In addition, market data shows that not only is the total compensation provided to directors reasonable, but the portion that consists of equity compensation is also reasonable. The reasonable compensation provided to directors, including equity compensation, is recoverable as a normal cost of business and supports SCE’s overall mission of providing electric services to its customers.

E. Additional And Related Requests

1. Summary of Additional and Related Requests From Exhibit SCE-09, Volume 01

In addition to SCE’s requests described above, SCE is also making several other requests, which are summarized below and explained in detail in the exhibits accompanying this application:

- **A Post-Test Year Ratemaking Mechanism For Years Between Test Year 2018 And SCE’s Next GRC**
  SCE’s proposal for Post-Test Year ratemaking, which would operate between 2018 and SCE’s next GRC Test Year, is found in Exhibit SCE-09, Volume 01.

- **Establishment of the DER Deferred Project Memorandum Account (DERDPMA)**
  Regarding SCE’s deferral pilot program, SCE proposes the establishment of the DERDPMA to track the 2018 GRC authorized requirement associated with individual projects upon their deferral for refund to customers.

- **Establishment of the PUC 706 SCE Officer Compensation Memorandum Account (SOCMA)**
  Pursuant to Public Utilities Code Section 706, which requires the establishment of a

---

8 Id.
9 See Exhibit SCE-09 Vol. 01, Chapter X.
10 See Exhibit SCE-09 Vol. 01, Section IV.F.1.
ratemaking mechanism to track officer compensation costs, SCE proposes the establishment of the SOCMA.\(^\dagger\)

- **Modification of the Pole Loading and Deteriorated Pole Programs Balancing Account (PLDPBA)**
  SCE proposes to maintain the two-way PLDPBA during the 2018 GRC cycle and requests that the Commission eliminate any cap above authorized levels.\(^\dagger\)

- **Recovery of Residential Rate Implementation Recorded Costs and Modification of the Residential Rate Implementation Memorandum Account (RRIMA)**
  Pursuant to D.15-07-001, SCE requests that the Commission find reasonable SCE’s recorded entries in the RRIMA and its forecast through December 2017 and authorize the transfer of the December 31, 2017 balance to SCE’s Base Revenue Requirement Balancing Account (BRRBA) for cost recovery.\(^\dagger\) SCE also proposes to modify the RRIMA Preliminary Statement so that SCE will seek recovery of the 2018 through 2020 year-end recorded balance in its annual April 1 ERRA Review proceeding.\(^\dagger\)

- **Modification of the Safety and Reliability Investment Incentive Mechanism (SRIIM)**
  SCE proposes to modify portions of the capital spending categories and staffing components of the 2015 SRIIM approved in D.15-11-021.\(^\dagger\)

- **Recovery of 2012-2014 Bark Beetle CEMA Costs**
  SCE requests that the Commission find that the company’s O&M expenses recorded in the Bark Beetle CEMA for the 2012-2014 period be found reasonable and authorize the transfer of the December 31, 2014 balance to SCE’s BRRBA for cost recovery.\(^\dagger\)

\(^\dagger\) See Exhibit SCE-09 Vol. 01, Section IV.F.2.
\(^\dagger\) See Exhibit SCE-09 Vol. 01, Section IV.F.3.
\(^\dagger\) SCE will provide the most recent balance in this account and other accounts discussed below in the Update Phase of this GRC.
\(^\dagger\) See Exhibit SCE-09 Vol. 01, Section IV.F.4.
\(^\dagger\) See Exhibit SCE-02 Vol. 01, Sections II.A, II.B.1 and II.B.2, and Exhibit SCE-09, Vol. 1, Section IV.F.5.
\(^\dagger\) See Exhibit SCE-09 Vol. 01, Section IV.F.6, and Exhibit SCE-12, Sections I.A and VII.
- **Elimination of the Project Development Division Memorandum Account (PDDMA)**
SCE is no longer pursuing generation planning efforts. Thus, the PDDMA is no longer needed.\(^{17}\)

- **Elimination of the Marine Corps Air Ground Combat Center Memorandum Account (MCAGCCMA) and Disposition of the After-Tax Gain On Sale**
Given the Commission’s approval of SCE’s sale of certain distribution assets located at the United States Marine Corps Air Ground Combat Center, SCE requests that the Commission approve its proposed treatment of the associated gain on sale and the elimination of the MCAGCCMA.\(^{18}\)

SCE requests that the Commission find reasonable SCE’s recorded entries in the SOBA and its forecast through December 2017, and authorize the transfer of the December 31, 2017 balance to SCE’s BRRBA for cost recovery. The Commission should approve SCE’s Opt-out GRC revenue requirement proposal, which would eliminate the need for SCE to record the revenue requirement in the SOBA.\(^{19}\)

- **Elimination of the Residential Services Disconnection (RSD) Memorandum Account (RSDMA) and Recovery of RSD Recorded Costs**
SCE requests that the Commission find reasonable SCE’s recorded entries in the RSDMA and its forecast through December 2017 and authorize the transfer of the December 31, 2017 balance to SCE’s BRRBA for cost recovery.\(^{20}\) SCE also requests that the Commission eliminate the RSDMA since pursuant to D.14-06-036 these activities will no longer be performed.

- **Elimination of the Energy Data Request Program (EDRP) Memorandum Account (EDRPMA) and Recovery of Energy Data Request Program Recorded Costs**

---

\(^{17}\) See Exhibit SCE-09 Vol. 01, Section IV.F.7.

\(^{18}\) See Exhibit SCE-09 Vol. 01, Section IV.F.8.

\(^{19}\) See Exhibit SCE-03, Section III.B.3, and Exhibit SCE-09, Vol. 1, Section IV.F.9.

\(^{20}\) See Exhibit SCE-09 Vol. 01, Section IV.F.10.
SCE requests that the Commission find reasonable SCE’s recorded entries in the EDRPMA and its forecast through December 2017 and authorize the transfer of the December 31, 2017 balance to SCE’s BRRBA for cost recovery. The Commission should approve SCE’s EDRP GRC revenue requirement proposal, which would eliminate the need for SCE to record the revenue requirement in the EDRPMA.21

- **Recovery of SCE’s Customer Data Access (CDA) Project Costs**
  SCE’s costs associated with the CDA Project are included in the GRC revenue requirement; therefore O&M cost recovery through the BRRBA is no longer necessary.22

- **Continuation of the Tax Accounting Memorandum Account (TAMA)**
  In SCE’s March 18, 2016 Advice Letter 3314-E-B, SCE proposed to address future TAMA activities in the 2018 GRC proceeding. Therefore, SCE proposes the continuation of the TAMA.23

- **Continuation of the Post-Employment Benefit Other than Pensions Balancing Account (PBOPBA)**
  SCE proposes to continue the PBOPBA during the 2018 GRC cycle to record the difference between CPUC-authorized and recorded PBOP expenses.24

- **Continuation of the Pension Cost Balancing Account (PCBA)**
  SCE proposes to continue the PCBA during the 2018 GRC cycle to record the difference between CPUC-authorized and recorded pension expenses.25

- **Continuation of the Medical Programs Balancing Account (MPBA)**
  SCE proposes to continue the MPBA during the 2018 GRC cycle to record the difference between CPUC-authorized and recorded medical, dental, and vision expenses.26

- **Continuation of the Results Sharing Memorandum Account (RSMA)**
  SCE proposes to continue the RSMA during the 2018 GRC cycle to record the

difference between CPUC-authorized and actual Results Sharing expenses paid out (and rename the account the Short Term Incentive Plan Memorandum Account (STIPMA)).27

2. Ongoing Efforts Stemming From 2009 and 2012 GRC Settlements With Disability Rights Advocates

In SCE’s 2015 GRC, the Commission approved a joint proposal between SCE and the Center for Accessible Technology regarding the appointment of an accessibility coordinator at SCE and further activities to improve accessibility of SCE's operations. Since entering into that proposal, SCE and the Center for Accessible Technology have continued their dialogue to follow-up on accessibility issues. In this 2018 GRC, SCE and the Center of Accessible Technology have once again jointly developed testimony that supports SCE's continuing efforts to improve the accessibility of its operations. The joint testimony is found in Exhibit SCE-11.

F. Exhibits Supporting SCE’s Request

SCE’s application is accompanied by the following separately numbered exhibits. SCE is ready to proceed with its showing on these exhibits according to the schedule shown in Section II.C, below.28

II.
STATUTORY AND REGULATORY REQUIREMENTS

A. Statutory And Other Authority – Rule 2.1

Rule 2.1 requires that all applications: (1) clearly and concisely state authority or relief sought; (2) cite the statutory or other authority under which that relief is sought; and, (3) be verified by the applicant. Rules 2.1(a), 2.1(b), and 2.1(c) set forth further requirements that are addressed separately below. The relief being sought is summarized in Sections I (Summary of the Reasons for SCE’s Request) and IV (Conclusion), and is further described in the testimony accompanying this application. The statutory and other authority under which this relief is being sought include California Public Utilities Code Sections 314.5, 377, 451, 454, 463, 463.5, 491, 701, 728, 728.1, 729, 740.1, 795, et al., the Commission's Rules of Practice and Procedure, and prior decisions, orders, and resolutions of this Commission, including D. 14-12-025. This application has been verified by an SCE officer as provided in Rule 1.11.

B. Legal Name And Correspondence – Rules 2.1(a) And 2.1(b)

Pursuant to Rules 2.1(a) and 2.1(b), SCE is a public utility organized and existing under the laws of the State of California. The location of SCE's principal place of business is: 2244 Walnut Grove Avenue, Rosemead, California. Correspondence or communications regarding this application should be addressed to:

---

29 Rule 2.1(a) requires the application to state the exact legal name of the applicant and location of its principal place of business, and, if a corporation, the state under the laws of which the applicant was organized. Rule 2.1(b) requires the application to state the name, title, address, telephone number, facsimile transmission number, and e-mail address of the person to whom correspondence or communications in regard to the application are to be addressed.
C. Proposed Categorization, Need For Hearings, Issues To Be Considered, Proposed Schedule – Rule 2.1(c)

Commission Rule 2.1(c) requires that all applications shall state “the proposed category for the proceeding, the need for hearing, the issues to be considered including relevant safety considerations, and a proposed schedule.”\textsuperscript{30} SCE proposes this application be designated a “ratesetting” proceeding, as defined in California Public Utilities Code §1701.1(c)(3) and Rule 1.3(e).\textsuperscript{31} The need for hearings and the issues (including safety issues) to be considered in such hearings will depend in large part on the degree to which other parties contest SCE’s request. In Exhibit SCE-07, Volume 4, SCE provides testimony on its corporate safety programs. In addition, where relevant, SCE has included testimony on relevant risk factors, including safety and reliability, in the other volumes of testimony.

SCE’s proposed procedural schedule is based on the Commission’s modified Rate Case Plan (RCP) schedule from D. 14-12-025. SCE has made a modification to accommodate ORA’s request to have its testimony served in April 7, 2017 instead of February 20, 2017. To the RCP schedule, SCE has added proposed dates for responses or protests to this application (Rule 2.6) and a placeholder for oral arguments (Rule 13.13) and a settlement conference (Rule 12.1).\textsuperscript{32}

Finally, while the RCP provides for public participation hearings in the applicant utility’s service territory, SCE requests that a portion of the evidentiary hearings for the 2018 GRC be held in southern California. The Commission held two days of evidentiary hearings in southern California for both SCE’s

\textsuperscript{30} \textit{TITLE 20 CAL. CODE REGS.} Div. 1, Art. 2, §2.1.

\textsuperscript{31} “Ratesetting cases, for purposes of this article, are cases in which rates are established for a specific company, including, but not limited to, general rate cases, performance-based ratemaking, and other ratesetting mechanisms.” \textit{CAL. PUB. UTIL. CODE} §1701.1(c)(3). “‘Ratesetting’ proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities).” \textit{TITLE 20 CAL. CODE REGS} §1.3(e).

\textsuperscript{32} SCE’s proposed schedule provides for a settlement conference following evidentiary hearings. However, whether and precisely when such a conference might take place cannot be determined at this time.
The witnesses that sponsor SCE’s proposals in this application reside in southern California. Travel to and from the Commission’s San Francisco offices for those witnesses, plus SCE’s attorneys and other support staff, is costly, both in terms of direct costs and time away from other duties. Those costs are ultimately passed on to SCE’s ratepayers. SCE therefore requests that the Commission schedule at least a portion of the evidentiary hearings for this 2018 GRC application in southern California. Although there was no webcast of SCE’s 2015 GRC, for the same reasons described above, SCE also requests that the evidentiary hearings in this case be webcast, as they were in SCE’s 2009 GRC.

D. Organization And Qualification To Transact Business – Rule 2.2

In compliance with Rule 2.2, a copy of SCE’s Certificate of Restated Articles of Incorporation, effective on March 2, 2006, and presently in effect, certified by the California Secretary of State, was filed with the Commission on March 14, 2006, in connection with Application No. 06-03-020, and is by reference made a part hereof.

A copy of SCE’s Certificate of Determination of Preferences of the Series D Preference Stock filed with the California Secretary of State on March 7, 2011, and presently in effect, certified by the California Secretary of State, was filed with the Commission on April 1, 2011, in connection with Application No. 11-04-001, and is by reference made a part hereof.

A copy of SCE’s Certificate of Determination of Preferences of the Series E Preference Stock filed with the California Secretary of State on January 12, 2012, and a copy of SCE’s Certificate of Increase of Authorized Shares of the Series E Preference Stock filed with the California Secretary of State on January 31, 2012, and presently in effect, certified by the California Secretary of State, were filed with the Commission on March 5, 2012, in connection with Application No. 12-03-004, and are by reference made a part hereof.

A copy of SCE’s Certificate of Determination of Preferences of the Series F Preference Stock filed with the California Secretary of State on May 5, 2012, and presently in effect, certified by the California Secretary of State, was filed with the Commission on June 29, 2012, in connection with Application No. 12-06-017, and is by reference made a part hereof.

A copy of SCE’s Certificate of Determination of Preferences of the Series G Preference Stock, filed with the California Secretary of State on January 24, 2013, and presently in effect, certified by the California Secretary of State, was filed with the Commission on January 31, 2013, in connection with Application No. 13-01-016, and is by reference made a part hereof.

A copy of SCE’s Certificate of Determination of Preferences of the Series H Preference Stock, filed with the California Secretary of State on February 28, 2014, and presently in effect, certified by the California Secretary of State, was filed with the Commission on March 24, 2014, in connection with Application No. 14-03-013, and is by reference made a part hereof.

33 Rule 2.2 requires the applicant to submit a copy of its organizing documents and evidence of its qualification to transact business in California, or to refer to that documentation if previously filed with the Commission.
34 Application 06-03-020, For Approval of Early Transfer of Anaheim’s Share of SONGS 2&3 to SCE.
A copy of SCE’s Certificate of Determination of Preferences of the Series J Preference Stock, filed with the California Secretary of State on August 19, 2015, and presently in effect, certified by the California Secretary of State, was filed with the Commission on October 2, 2015, in connection with Application No. 15-10-001, and is by reference made a part hereof.

A copy of SCE’s Certificate of Determination of Preferences of the Series K Preference Stock, filed with the California Secretary of State on March 2, 2016, and presently in effect, certified by the California Secretary of State, was filed with the Commission on April 1, 2016, in connection with Application No. 16-04-001, and is by reference made a part hereof.

Certain classes and series of SCE’s capital stock are listed on a “national securities exchange” as defined in the Securities Exchange Act of 1934 and copies of SCE’s latest Annual Report to Shareholders and its latest proxy statement sent to its stockholders has been filed with the Commission with a letter of transmittal dated March 18, 2016, pursuant to General Order Nos. 65-A and 104-A of the Commission.

E. Balance Sheet And Income Statement – Rule 2.3(h) and Rule 3.2(a)(1)

Appendix A to this application contains copies of SCE's balance sheet as of June 30, 2016, and income statement for the period ended June 30, 2016, the most recent period available.

F. Present And Proposed Rates – Rule 3.2(a)(2) And Rule 3.2(a)(3)

The presently effective rates proposed to be changed, and the changes proposed to be made thereto are addressed in Exhibit SCE-09, Volume 01. Proposed tariff sheets reflecting our revenue allocation and rate design proposals will be addressed in Phase 2 of this proceeding.

If the Commission were to allocate the increase in 2018 revenues shown in Table 1 to SCE’s customer groups on a System Average Percentage Change (SAPC) basis, the impact on each customer group would be as shown in Table 2.

</tbody>
</table>

The increases shown in Table 2 are illustrative only. As mentioned earlier, revenue allocation and rate design issues associated with this filing will be addressed in a separate phase.

G. Description Of SCE’s Property And Equipment, Original Cost Thereof, And Depreciation Reserve – Rule 3.2(a)(4)

SCE’s service territory is located throughout central and southern California, and includes approximately 200 incorporated communities as well as outlying rural territories. A list of the counties and municipalities served by SCE is attached hereto as Appendix B.

SCE is engaged in the business of generating, transmitting, and distributing electric energy in portions of central and southern California. In addition to its properties in California, SCE owns, jointly with others, a facility located in Arizona. SCE’s share of these facilities produces electric energy for use by SCE customers in California.

SCE owns and operates 33 hydroelectric plants located throughout central and southern California, one combined-cycle gas plant with two units, five gas-fired peaker units, a diesel-driven electric generating plant, and 25 solar photovoltaic sites (rooftop solar plants in southern California, as well as one ground-based solar plant located in central California). SCE has a 78.21% interest in San Onofre Nuclear Generating Station (SONGS) Units 2 and 3 located in southern California. SCE does not operate, but owns 15.8% interest in Palo Verde Nuclear Generating Station Units 1, 2, and 3 located in Arizona.

Pursuant to Commission Order in Decision No. 49665, dated February 16, 1954, SCE has, since 1954, used straight-line remaining life depreciation for computing book depreciation expense for accounting and ratemaking purposes. The original cost and depreciation reserve applicable to SCE’s property and equipment are shown in the Balance Sheet attached as Appendix A of this application, and
in the schedules included as Exhibit SCE-09 (Depreciation Study) of the testimony supporting this application.

H. Summary Of Earnings – Rule 3.2(a)(5)

A summary of earnings is shown in Table 1, above.

I. Tax Depreciation – Rule 3.2(a)(7)

J. Proxy Statement – Rule 3.2(a)(8)

Certain classes and series of SCE’s and Edison International’s (SCE’s parent company) capital stock are listed on a “National Securities Exchange” as defined in the Securities Exchange Act of 1934. Three copies of the 2016 Edison International and SCE joint proxy statement were provided to the Commission in compliance with Ordering Paragraph No. 1 of Decision No. 88-01-063, Condition No. 5d, by a letter of transmittal dated March 18, 2016.

K. Statement Pursuant To Rule 3.2(a)(10)

Rule 3.2(a)(10) requires that the “application of electrical … corporations shall separately state whether or not the increase reflects and passes through to customers only increased costs to the corporation for the services or commodities furnished by it.” SCE’s application includes a request for authorization to add various capital expenditures to rate base. These requested rate base additions would earn a return on, as well as a return of capital. In that sense, SCE’s request in this proceeding is not limited to passing through to customers “only increased costs to the corporation for the services or commodities furnished by it.”

35 Rule 3.2(a)(9) applies only to telephone utilities, so is not addressed in this application.
L. **Service Of Notice – Rules 3.2(b), 3.2(c), 3.2(d)**

As required by Rule 3.2(b), a notice stating in general terms the proposed increases in rates will be mailed to the designated officials of the state and the counties and cities listed in Appendix B. As required by Rule 3.2(c), notice will be published in a newspaper of general circulation in each county in SCE’s service territory within which the rate changes would be effective. A list of the cities and counties affected by the increases proposed in this application is attached as Appendix B. Finally, pursuant to Rule 3.2(d), notice shall be furnished to customers affected by the proposed increase by including such notice with the regular bills mailed to those customers. Finally, pursuant to Rule 3.2(e), SCE will file proof of compliance with the notice requirements of Rule 3.2(b)-(d) within 20 days after compliance with the last of these subsections that is applicable.

M. **Treatment of Confidential Information**

On August 18, 2016, the Commission issued a proposed decision in R.14-11-001 regarding the submission of confidential information to the Commission. SCE’s September 1, 2016 submission of confidential information to the Commission (testimony, workpapers, and data request responses) complies with the requirements of the August 18, 2016 decision. As such, SCE has submitted a declaration executed by an officer supporting SCE’s submission of any confidential master data request response and any volume of testimony or workpaper that contains confidential information.

N. **Other Information**

In Appendix A of Decision No. 07-07-004 on the Rate Case Plan, the Commission required the submission of a compliance exhibit as part of the utilities’ Notice of Intent (NOI) for a general rate case application. Although SCE is no longer required to submit an NOI, SCE has still submitted a compliance exhibit as Exhibit SCE-10.

---

27 See Section 7.A on p. A-32 of Appendix A in Decision No. 07-07-004 (“All studies and information required to be submitted in the rate case by the Commissioner in prior rate decisions and subsequent policy statements of decisions.”
28 See Decision No. 14-12-025 where the CPUC eliminated the requirement for utilities to submit an NOI.
29 In addition, SCE is still submitting in its 2018 GRC other requirements previously identified for the NOI such as five years of recorded data, adjustments, etc. See page A-31 of Appendix A in D. 07-07-004. SCE continues to not submit information on demand side management, resource plan, and rate design in its Phase I GRC submission for the reasons stated in SCE’s 2015 Application (A. 13-11-003).
O. Service List

The official service list has not yet been established in this proceeding. SCE is thus serving this application on the service list established by the Commission in SCE’s 2015 General Rate Case in A.13-11-003.

III. CONCLUSION

SCE respectfully asks the Commission to authorize the revenue adjustments and other requests included herein to become effective January 1, 2018, and to issue its decision:

1. Finding reasonable the requested ABRR and ordering that ABRR to be made effective January 1, 2018;
2. Ordering the concurrent withdrawal and cancellation of existing rates, charges, and classifications to be superseded by rates and other tariff changes that reflect the revenues requested herein;
3. Rendering Findings of Fact and Conclusions of Law, and issuing Orders consistent with the materials accompanying this filing; and,
4. Granting such other relief as the Commission finds to be just and reasonable.

Respectfully submitted,

SOUTHERN CALIFORNIA EDISON COMPANY

(b) Terms of preference and preferred stock, whether cumulative or participating, or on dividends or assets, or otherwise.

Each share of Common Stock is entitled to one vote. Each share of Cumulative Preferred Stock, 4.08% Series, 4.24% Series, 4.32% Series and 4.78% Series, is entitled to six votes. Shares of Preference Stock are not entitled to vote. For terms of preference, etc., see Applicant’s Restated Articles of Incorporation dated March 2, 2006 (“Articles”), filed March 14, 2006, with Application 06-03-020. The terms of the Cumulative Preferred Stock are set forth in the Articles. Terms of additional series of Preference Stock are set forth in Certificates of Determination of Preferences as follows: Series F Preference Stock, filed June 29, 2012, with Application 12-06-017; Series G Preference Stock, filed January 31, 2013, with Application 13-01-016; Series H Preference Stock, filed March 24, 2014, with Application 14-03-013; Series J Preference Stock, filed October 2, 2015, with Application 12-06-017; and Series K Preference Stock, filed April 1, 2016, with Application 16-04-001. All shares of Series B Preference Stock, Series C Preference Stock, Series D Preference Stock, and Series E Preference Stock have been redeemed and are no longer outstanding.
(c) Brief description of each security agreement, mortgage and deed of trust upon applicant's property, showing date of execution, debtor and secured party, mortgagor and mortgagee, and trustor and beneficiary, amount of indebtedness authorized to be secured thereby, and amount of indebtedness actually secured, together with any sinking fund provisions.

1 None of SCE’s debt obligations have sinking fund provisions.
2 Secured by first and refunding mortgage bonds.
3 Held by SCE.
4 Secured by SCE’s first and refunding mortgage bonds, but payment of interest and principal guaranteed by bond insurance.
(d) Amounts of bonds authorized and issued, giving name of the public utility which issued same, describing each class separately, and giving date of issue, par value, rate of interest, date of maturity and how secured, together with amount of interest paid thereon during the last fiscal year.

For the 12 months ended December 31, 2015, interest in the amount of $453 million was paid on all bonds issued and outstanding. For other data required by this subparagraph (d), see response to subparagraph (c).

(e) Each note outstanding, giving date of issue, amount, date of maturity, rate of interest, in whose favor, together with amount of interest paid thereon during the last fiscal year.

For the 12 months ended December 31, 2015, interest in the amount of $20 million was paid on all notes issued and outstanding. For other data required by this subparagraph (e), see response to subparagraph (f).
(f) Other indebtedness, giving same by classes and describing security, if any, with a brief statement of the devolution or assumption of any portion of such indebtedness upon or by any person or corporation if the original liability has been transferred, together with amount of interest paid thereon during the last fiscal year.

VERIFICATION

I am an officer of the applicant corporation herein, and am authorized to make this verification on its behalf. I am informed and believe that the matters stated in the foregoing document are true.

I declare under penalty of perjury that the foregoing is true and correct.

Executed this 1\textsuperscript{st} day of September, 2016 at Rosemead, California.

\hspace{1cm} /s/ Ronald O. Nichols
Ronald O. Nichols
President
SOUTHERN CALIFORNIA EDISON COMPANY
8631 Rush Street
Post Office Box 800
Rosemead, California  91770
BEFORE THE PUBLIC UTILITIES COMMISSION OF THE
STATE OF CALIFORNIA

Application Of Southern California Edison
Company (U 338-E) For Authority To Increase
Its Authorized Revenues For Electric Service In
2018, Among Other Things, And To Reflect That
Increase In Rates.

CERTIFICATE OF SERVICE

I hereby certify that, pursuant to the Commission’s Rules of Practice and Procedure, I have this
day served a true copy of TEST YEAR 2018 GENERAL RATE CASE APPLICATION OF
SOUTHERN CALIFORNIA EDISON COMPANY (U 338-E), on all parties identified on the
attached service list(s) A.13-11-003. Service was effected by one or more means indicated
below:

☒ Transmitting the copies via e-mail to all parties who have provided an e-mail address.

☒ Placing the copies in sealed envelopes and causing such envelopes to be delivered by
hand or by overnight courier to the offices of the ALJ(s) or other addressee(s).

Karen Clopton
Chief ALJ - CPUC
505 Van Ness Ave
San Francisco, CA 94102

Executed this September 1, 2016, at Rosemead, California.
