

Large Generator Interconnection Agreement (LGIA) as required by the Commission's Order Nos. 2003 and 2003-A rather than the Interconnection Agreement filed herein."³

Soon after the January 11 Order, SCE representatives spoke with Commission Staff, who provided some additional guidance concerning the January 11 Order and the compliance filing. Based on that preliminary guidance, SCE drafted the LGIA appendices, and, after internal review and discussion, sent that draft to Corona on February 2, 2005. Because this is the first LGIA that SCE will file, the drafting of the appendices and internal review took longer than expected. Corona has indicated that it supports the extension of time proposed herein.

The Parties agree that it would be preferable for SCE to file an executed LGIA, if possible, rather than to have Corona review the LGIA *after* it is filed. Thus, SCE requests that the Commission grant it a thirty (30) day extension of time in order to negotiate the LGIA appendices with Corona and, hopefully, file an executed LGIA. This extension of time would be in the best interests of the Parties, as well as the Commission. It would be a waste of Commission resources to review SCE's compliance filing if Corona has any issues with the draft LGIA that could have been resolved by the Parties prior to filing.

³ *Id.*

II. CONCLUSION

For the foregoing reasons, the Commission should grant SCE its Motion for Extension of Time of the Compliance Filing for thirty (30) days.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "E.A. Berman", written over a horizontal line.
